SUMMARY

Network administrator with 5 years of experience operating campus LAN/WAN for a 900-user organization.

EXPERIENCE

Network Administrator, Example Hospital Group

2021 - present

- Configured Cisco Catalyst switches, VLANs and inter-VLAN routing for three hospital buildings.
- Maintained FortiGate firewall rules and site-to-site IPsec VPN tunnels between five branches.
- Monitored network performance with PRTG and resolved outages, reducing mean time to repair by 30%.
- Upgraded the core network and documented the topology diagrams, IP plan and change procedures.
- Trained helpdesk staff on first-level troubleshooting of Wi-Fi and LAN problems.

IT Support Officer, Example School

2019 - 2021

- Installed and repaired desktop computers, printers and wireless access points.
- Set up user accounts in Active Directory and managed backups of file servers.

EDUCATION

B.Eng. Computer Engineering, Example Institute of Technology, 2019

SKILLS

Cisco IOS, VLAN, OSPF, FortiGate, IPsec VPN, PRTG, Windows Server, Active Directory, Linux basics
