## EDUCATION

B.B.A. Information Systems, Example University, 2018

## EXPERIENCE

IT Business Analyst, Example Manufacturing Co., 2020-present  
System Support Officer, Example Bank, 2018-2020

## KEY ACHIEVEMENTS AND SKILLS

- Gathered requirements from finance and procurement users through workshops and translated them into user stories.
- Conducted stakeholder interviews with 25 end users to understand pain points in the purchasing process.
- Produced process modeling diagrams and data flow analysis for the ERP procurement module.
- Documented functional specifications and test scenarios for three ERP change requests.
- Provided user support and handled service desk tickets for the finance system after go-live.
- Explained technical details of the new workflow to non-technical managers in monthly briefings.
- Reviewed requirements documents and vendor specifications to confirm scope before sign-off.
- Carried out a compliance check of approval workflows against the internal audit policy.
- Analyzed transaction logs in Excel to find duplicate invoices and reported a 12 percent error rate.
- Planned and prioritized the backlog for two release cycles with the project manager.
- Presented project status updates at team meetings.
- Contributed to user guide drafts reviewed by the documentation team.
- Participated in vendor evaluation for a document management system.
- Completed course: IIBA ECBA preparation (self-study).
- English: good command, IELTS 6.5.
- Monitored systems and job queues on the reporting server during month-end.
